

CITATIONS

20 officers issuing 5 citations a day, saving just 5 minutes on each, results in a projected annual savings of 1600 hours

WHAT IS THE PROBLEM?

It's too difficult to quickly issue citations and tickets, and complete paperwork. Meanwhile, errors, manual processes, and duplicate work create delays, inaccurate reporting, and costly administrative overhead. Each day across the country, at least one officer is injured or killed during a traffic stop or while driving a patrol car, making traffic incidences the most dangerous events encountered by law enforcement officers.

WHAT IS THE SOLUTION?

Cloud-based e-citations and reports keeps you on top of it all. Work smarter and faster with CJIS compliance and secure access to always up-to date citations, reports, forms, and streamlined workflows.

SAVE 1600 OFFICER HOURS ANNUALLY OR MORE

The standard multi-part ticket form typically takes 10-15 minutes to complete. Electronic ticketing reduces that to just 2-3 minutes – a time savings of at least 8 minutes per citation. The cumulative effect to your efficiency is tremendous. Consider this use case: 20 officers issuing 5 citations a day, and saving just 5 minutes on each, results in a projected savings of 1600 hours annually.

ISSUE TICKETS IN UNDER 3 MINUTES

Issue tickets in less than 3 minutes and reduce the amount of time spent roadside

IMPROVE ACCURACY

Auto-populate offender and vehicle information, and instantly validate entered information

AUTOMATE FORM COMPLETION

Speed up routine forms, including towing, parking, and notice to appear

ACHIEVE SECURITY COMPLIANCE

Use end-to-end security with CJIS-compliant AWS GovCloud

QUICKLY SHARE INFORMATION

Streamline operations and send information to court and records systems

CUSTOMER GAINS

FAST AND EASY SETUP

Configure your system and quickly get your mobile workforce up and running with easy plug and play cloud-based installation

ALWAYS UP-TO-DATE

Use automatic updates or download at your convenience and always have the latest features and security measures

FASTER COLLABORATION

Share data with other agencies for house reporting, courts, RMS and other databases using our secure API

CITATIONS MEETS THE REQUIREMENTS OF THE BUY AMERICA ACT

WHO WE ARE

CentralSquare Technologies is an industry leader in public safety and public administration software, serving over 7,500 organizations from the largest metropolitan city to counties and towns of every size across North America. Its technology platform provides solutions for public safety, including 911, computer aided dispatch, records management, mobile, and jail.

For public administration agencies, CentralSquare provides software for finance, community development, human capital management, utility billing, citizen engagement, asset management, property tax and municipal services. It also provides healthcare management software for hospitals and clinicians. CentralSquare's broad, unified and agile software suite serves 3 in 4 citizens across North America. More information is available at www.centrialsquare.com.
