

FINANCE PRO

Gain control of your finances and cut labor intensive, manual processes.

WHAT IS THE PROBLEM?

Finance departments at local agencies, especially in mid-size to smaller markets, are under tremendous pressure. Many are understaffed, underfunded and if they have a finance system, it's often years behind today's technology and isn't integrated with other systems. The result is time wasted searching for critical data and error-prone manual processes that require employees to fill out paper forms, enter data manually into spreadsheets and use interoffice mail to route purchase orders and bills for payment. It's inefficient and frustrating for staff.

WHAT IS THE SOLUTION?

Finance Pro is an easy-to-use, integrated solution that gives you the power to easily manage the finances of your small to mid-size community. It makes everything about managing your agency's finances easier. Instead of creating a budget one cell at a time, Finance Pro uses your current year's fiscal information as a starting point, allowing you to pull year-date actuals and estimated costs. From there, you can apply different assumptions on what next year's budget might look like.

VISIBILITY

Gain increased visibility on everything from requisitions to accounts payable to status of projects to identify and eliminate bottlenecks.

AUTOMATE

Eliminate paperwork and manual processes as paper forms are digitized and flow electronically through the system with automated workflows.

TRANSPARENCY

Provide easy inter-department access to all your data, eliminating silos and shadow budget systems.

CUSTOMER GAINS

Gone are the days of having to fill out purchase order forms by hand, stapling the appropriate paperwork and routing it to the next approver. With Finance Pro, you can now enter that purchase order directly into the system, attach documents electronically to that request and with powerful automated workflows based on your processes, have the request sent via email to the next approver.

Revenue and costs for your projects, like your annual 4th of July celebration, are easy to track, even across multiple years. With Finance Pro, you can assign projects a number with every expenditure across every department and track it to ensure projects remains on budget. And if someone enters an incorrect code or uses the wrong expense category, Finance Pro will catch that too.

Finance Pro is part of CentralSquare Public Administration Pro Suite, a secure cloud-based solution for end-to-end community management, from Finance, to Community Development to Human Capital and more.
