

JAIL ENTERPRISE

Powered by **Inform**

Cut down booking
time by 30 minutes
per inmate

WHAT IS THE PROBLEM?

The information bottleneck slows down so many things in your jail. Your staff may be reentering information you already have during booking. It takes too long to classify and place inmates, even when they're regular visitors to your facility. You run a sophisticated operation, yet your officers are scribbling down notes about inmate location and movements. Staying in regulatory compliance takes even more work. You have to dig through all of your systems once again to get the documentation you need.

WHAT IS THE SOLUTION?

CentralSquare Jail Enterprise is part of your integrated Records and CAD systems, so you have access to everything in your database, including warrants, case reports, medical files and even past facility history. Customize forms, reports and dashboards to meet all of your tracking and reporting needs. Use a tablet to enter information wherever you are, including inmate movements, communication and disciplinary actions. All your data is searchable and reportable since it's part of your integrated system.

EASY COMPLIANCE

Your database interfaces with NCIC and state-mandated reporting systems

AUTOMATED PROCESSES

Cell intake and release wizard saves time on booking and classifications

CUSTOMIZED SYSTEM

Configure your workflow, forms, reports and dashboards to meet your agency's needs

INFORMED DECISIONS

Access to the shared database and historical records provides background for fast, accurate decisions

LESS PAPER

Use tablets and computers to enter your information, and ditch the checklists and forms

CUSTOMER GAINS

FASTER BOOKING

Same serious time with automated booking wizards and auto-population of records

DATA INTEGRITY

Less retyping means more accurate, secure data

SHARED DATA

Save time and keep everyone informed with your searchable master database

REDUCE BOOKING FROM 45 TO 15 MINUTES PER INMATE

When you book inmates directly from your cases and warrants your data is accurate and you don't waste time typing everything in again. You can even access history from previous stays at your facility. The cell intake wizard automates your intake process. Classify and place inmate placements faster—and better using a decision tree that streamlines your procedures and accesses all your data.

WHO WE ARE

CentralSquare Technologies is an industry leader in public safety and public administration software, serving over 7,500 organizations from the largest metropolitan city to counties and towns of every size across North America. Its technology platform provides solutions for public safety, including 911, computer aided dispatch, records management, mobile, and jail.

For public administration agencies, CentralSquare provides software for finance, community development, human capital management, utility billing, citizen engagement, asset management, property tax and municipal services. It also provides healthcare management software for hospitals and clinicians. CentralSquare's broad, unified and agile software suite serves 3 in 4 citizens across North America. More information is available at www.centrialsquare.com.
