

FINANCE ENTERPRISE

Make your financial data work for you and save time with one powerful solution

WHAT IS THE PROBLEM?

As local government agencies are asked to do so much more with much less, the pressure to maintain error-free books while lowering expenses can be overwhelming. Many finance departments have too few employees, almost no support staff, and little money to pay for costly software that could help lighten the load. Some agencies try to make sense of financial data across multiple departments using aging and disparate systems which impede the smooth flow of data, require manual work and unnecessary redundancies, and create duplicate data, all at the expense of speed and accuracy.

WHAT IS THE SOLUTION?

Finance Enterprise is a comprehensive, powerful tool that combines finance, human resources and payroll into one, easy-to-use solution. Featuring advanced analytics and robust workflow automation tools built around your processes, Finance Enterprise transforms how you work, enabling you to make better, smarter decisions for the financial health of your community.

Empowered by these gains, agencies provide better access to financial information so crucial for building and keeping the public trust. Through improved accountability and transparency, the public gains a better understanding—and trust—of how tax money is spent within their communities.

**AGENCIES USING CENTRAL SQUARE
FINANCE REALIZE SUBSTANTIAL IMPACT:**

TIME SAVINGS

REVENUE GAINS

PROCESS IMPROVEMENTS

CUSTOMER GAINS

Finance Enterprise transforms complex financial tasks into a streamlined view of an entire finance enterprise. Finance directors, budget managers, and AR clerks alike reap rewards beyond improved accuracy and speed; they also benefit from substantial revenue savings and lower total cost of ownership. What's more, workflows are automated, allowing you to move items like P.O.s or payments seamlessly from one approver to the next, notifying each approver by email.

SALT LAKE CITY

"We thought we were going to need a training plan for the CentralSquare Finance Enterprise. But it's so easy to use that the feedback was there was no need for a training plan. It's that easy to learn."

— Richard Carl Rutledge
Financial Systems Administrator

HOW DOES IT WORK?

At the heart of Finance Enterprise is an HTML5 response interface that is easy-to-use and even easier to learn, allowing you to use it right away. Finance Enterprise also features workspaces and dashboards tailored to your role or customized by you to display the information you want to see, allowing you to work more efficiently.

Advanced analytics, with AI and data visualization, are built right into Finance Enterprise. Using Analytics, you can not only run the reports you've come to rely on, but you can delve deeper into your data and uncover new insights and patterns that have been hidden or siloed. And once you've run the reports, you can easily schedule them for automatic delivery to the people you choose.

WHO WE ARE

CentralSquare Technologies is an industry leader in public safety and public administration software, serving over 7,500 organizations from the largest metropolitan city to counties and towns of every size across North America. Its technology platform provides solutions for public safety, including 911, computer aided dispatch, records management, mobile, and jail.

For public administration agencies, CentralSquare provides software for finance, community development, human capital management, utility billing, citizen engagement, asset management, property tax and municipal services. It also provides healthcare management software for hospitals and clinicians. CentralSquare's broad, unified and agile software suite serves 3 in 4 citizens across North America. More information is available at www.centrialsquare.com.
