

Jurisdiction Online

Simplify management of your regulated equipment and access the information anywhere, anytime

WHAT IS THE PROBLEM?

Permitting and inspection departments face a daunting task coordinating communication and record sharing between citizens, regulatory agencies, and industry stakeholders, across a multitude of systems and data sources.

WHAT IS THE SOLUTION?

A single, hosted SaaS database encourages collaboration across your regulatory departments to simplify code enforcement, risk management and accounting workflows, resulting in faster and safer operations for regulated equipment. With role-based security and real-time access to data, ensure the right information gets to the right people. The use of a public portal for online payments, applications, inspections, violations and licensing workflows makes stakeholder interactions easier – on their timeline and with less administrative burden on your resources.

WHAT ARE THE BENEFITS?

The modular Jurisdiction Online solution can be configured to support a variety of functional needs – from permitting and inspection to licensing and registration, making it easy to deploy and maintain regulated assets with minimal training and support. Its easy-to-use and intuitive interface provides a holistic solution for monitoring all of your regulated equipment including explosives, asbestos abatement, cranes, turbines, elevators and more, at a low and predictable cost.

STREAMLINE CODE ENFORCEMENT, RISK MANAGEMENT AND JURISDICTIONAL ACCOUNTING WORKFLOWS FOR FASTER AND SAFER OPERATIONS.

Jurisdictional data sharing within a single, hosted SaaS database

Supports the entire permitting-inspection-certification-accounting workflow

Elevators, amusement devices, explosives, asbestos abatement, wind turbines, cranes

WHO WE ARE

CentralSquare Technologies is an industry leader in public safety and public administration software, serving over 7,650 organizations from the largest metropolitan city to counties and towns of every size across North America.

CentralSquare's broad, unified and agile software suite serves 3 in 4 citizens across North America. Our technology platform provides solutions for public safety, including 911, computer aided dispatch and records management. For public administration agencies, CentralSquare provides software for finance, human capital management, payroll, utility billing, asset management and community development.
